Quick Start Guide
for Sonnet Thunderbolt™ 3 to Dual HDMI™ 2.0 Adapter

Connecting Displays

1. Plug the Sonnet adapter's Thunderbolt 3 (USB-C) connector into a Thunderbolt 3 port on your computer.

2. Connect an HDMI cable (not included) between each port on the Sonnet adapter and a port on each display.

3. Power on your displays and computer; the displays will be recognized immediately. Make any display settings changes as necessary.

Thunderbolt 3 to Dual HDMI 2.0 Adapter Description

HDMI   **HDMI**

1 – HDMI Port 1
Connect an HDMI cable (not included) between this port and a port on your monitor.

2 – HDMI Port 2
Connect an HDMI cable (not included) between this port and a port on your monitor.

3 – Thunderbolt 3 (USB Type-C) Connector
Plug this into one of your computer's Thunderbolt 3 ports (usually indicated by a ⚡ logo), or at the end of a Thunderbolt device chain.

Preparing to Use the Adapter With a Mac® Computer
The drivers required to support the Thunderbolt 3 to Dual HDMI 2.0 Adapter are installed as part of macOS®; there are no preparation steps.

Preparing to Use the Adapter With a Windows® PC
To enable the Thunderbolt 3 to Dual HDMI 2.0 Adapter to work with your Windows computer, please do the following:

1. Update your computer's BIOS to the latest version.

2. Confirm your computer is running, or update to, the latest Thunderbolt software.

3. Confirm your computer is running, or update to, the latest version of Windows 10.

4. With your computer turned on, connect the adapter to your computer.

5. The first time you connect the Thunderbolt 3 to Dual HDMI 2.0 Adapter, an *Approve New Thunderbolt™ Devices* window appears. From the drop-down menu select Always Connect, and then click OK.
